Dear Parent or Guardian,

We are excited to announce that Health-e-Schools is now available at your child's school. You may have already heard other parents talking about this in other schools in the county. It may be referred to as "Telemedicine". Our school nurses have been trained to work with a provider online via a safe and secure computer screen and equipment to see students if needed during the day while at school. They can treat illnesses, provide urgent care and help students manage already known medical conditions. We then work with the parent or guardian, the school nurses and your child's primary care physician to provide the best care possible. If your student is seen at school and will need medication, it can be called in to the pharmacy you normally use. Our provider will also contact you later that day to discuss the visit and any concerns we note. In order to do this for your child though, we would need you to complete the attached health questionnaire and the registration form.

Telemedicine services are available for all students regardless of insurance status. We will bill private insurance, Medicaid and NC HealthChoice. Your normal copay and/or deductibles apply and would be billed to you after the visit. If your child is uninsured, we will work with you to ensure that he/she gets the same affordable healthcare.

The most important thing for your child to be able to receive these services is for you to complete and sign the forms, giving us permission to see them at school. Also be sure to return these to the school nurse so we can enter all information into our system. Please complete BOTH PAGES (front & back), and be sure to ***sign the form***, which gives us permission to treat your child. Incomplete forms will be returned to you.

We look forward to hopefully being able to assist you and your child this year in providing health care services at their school. Parents are encouraged to contact Health-e-Schools with medical concerns so that we can work together to provide the best care for each student. We are always open to questions or concerns and welcome your feedback. Please visit our website, email or call if you need additional information. In addition, we would love for you to follow our blog! [www.Health-e-Schools.com](http://www.Health-e-Schools.com)

Sincerely,

The Health-e-Schools Staff
